**Vickery Transportation to be awarded multiple honors by the National Tank Truck Carriers, Inc. (NTTC)**

Vickery, Ohio– Vickery Transportation

Tuesday May 20, 2008 in New York, Vickery Transportation will add more honors to its list of safety awards. The new list includes; The 2007 Competitive Safety Grand Award of less than 3 million mile class, The Personnel Safety Grand Award for less than 3 million mile class and the Third year improvement award. Paul Baute the safety director also will receive an award for directing Vickery Transportation to the Grand Award for Safety Activities in the Competitive Safety Contest in the less than 3 million mile class.

Founded in 1945, National Tank Truck Carriers (NTTC) is a trade association composed of approximately 200 trucking companies which specialize in the nationwide distribution of bulk liquids, industrial gases and dry products in cargo tank motor vehicles. In addition to carrier members, NTTC is supported by over 250 suppliers of goods and services to the tank truck industry as "Associate Members".

Vickery Transportation Inc. is a for hire transportation company that provides bulk liquid hazardous and non-hazardous waste transportation services. Based out of Northwest Ohio, Vickery Transportation's home base is onsite a hazardous waste deep-well injection facility operated by Vickery Environmental Inc. Vickery's services include bulk transportation of many different waste streams from various industries including landfills, steel mills, galvanizing plants, plating facilities, and EPA cleanups.

Vickery Transportations provides superior service and furnishes well trained professional drivers that are the best in the business
